# Announcement

# Meeting  of  ISO/IEC  JTC1/SC22/WG5

## July  21-25,  1997

### Technische  Universität  Wien,  Prechtl-Saal
### Karlplatz  13,  Vienna,  Austria

The next meeting of WG5 will be held at the Technical University of Vienna from 21st to 25th July 1997.  Details of booking and travel arrangements appear overleaf.

The major items of business are the completion of the Working Draft of Part 3 of the Fortran Standard, Conditional Compilation, in order that it can be forwarded to SC22 shortly after the meeting for its first CD ballot, and the revision of WG5 Strategic Plan for the period covering the development of the Fortran 2000 Standard.

In view of JTC1's rapidly evolving postion regarding the electronic distribution of documents, it is also appropriate to thoroughly review WG5's electronic document procedures, both with regard to format and to access control.

Heads of delegations are reminded that both the Convenor and the host (via the local contact, Gerhard Schmitt – see overleaf) should be informed of the members of their delegations no later than one month before the start of the meeting.

Further information about the meeting is available via the World Wide Web at http://edvzbb5.ben-fh.tuwien.ac.at/wg5vienna/meeting.htm, or via WG%'s own pages (URL: http//:www.etrc.ox.ac.uk/wg5.html), or may be obtained directly from the Convenor:

# Meeting of SC22/WG5 in Dresden, July 22-26, 1996

**Meeting Location:** Prechtl-Saal
Technische Universität Dresden
Karlsplatz 13
A–1040 Vienna
Austria

**Accommodation:** Hotel Kaiserhof
Frankenberggasse 10
A-1040 Vienna

Tel: + 43 1 505 1701
Fax: + 43 1 505 887588

A special rate can be obtained by specifying that you are attending the WG5 Fortran conference.

**Travel Arrangements:**

**By air:**   Many major airlines fly to Vienna (Schwechat).

There are several ways of travelling from Schwechat Airport to the city – a distance of around 19 km (12 miles).

The most comfortable, and the quickest, is to use the Vienna Airport Lines express bus to the City Air Terminal.  This takes 20 minutes and costs ATS 70 (schillings).

A cheaper way is to use the rapid transit (S-Bahn) system.   This costs ATS 34 (two zones) and takes about 30 minutes;  trains run every 30 minutes.

From the city air terminal a taxi to the Hotel Kaiserhof (or the Technical University) will cost around 60 ATS.  Alternatively you can take the underground line U4 (direction Hütteldorf) from Landstrasse/Wien Mitte to Karlsplatz/Oper, which is close to both the hotel and the Technical University. If you have used the rapid train from the airport the underground in Vienna is included.

A taxi from the airport to the hotel will cost about ATS 350.

**By rail:**   Vienna has several railway stations.

If you are arriving from western parts of Germany, France, England, Netherlands, Scandinavia, etc, you will arrive at the Westbahnhof.  Some trains from Hungary also arrive at the Westbahnhof.  From the Westbahnhof take a taxi (about ATS 100) to the Hotel Kaiserhof (or the Technical University) or underground line U3 and U2 (from Westbahnhof to Karlsplatz/Oper).

If you are arriving from Italy, Hungary, eastern parts of Germany, etc, you will arrive at the Südbahnhof (sometimes also called the Ostbahnhof!).  From the Südbahnhof take a taxi (about ATS 100) to the Hotel Kaiserhof (or the Technical University) or tram D directly to the Opera. From there you can easily walk to the Hotel Kaiserhof (or the Technical University).

**By car:**     Vienna is introducing stringent car-parking regulations which are expected to be in force by the time of the meeting.  These will restrict parking in this area of Vienna to 90 minutes.  The local organiser (Gerhard Schmitt) is attempting to make special arrangements for participants, but bringing a car to Vienna is NOT recommended.  Anyone who expects to have a car should contact Gerhardt Schmitt as soon as possible.

**Local Contact:**     This WG5 meeting is hosted by the Austrian Standards Institute, ON, with Gerhard Schmitt as the local organizer.  He can be contacted as follows:
