

## Dutch National Activity Report

Fortran is represented in the NNI Programming Languages Committee, which is the national counterpart of SC22. This committee meets approximately every 3 month. In between meetings, the business is conducted by email.

NNI voted as follows in the Fortran-related ballots since the last WG5 meeting:

FDIS 1539-3 Conditional Compilation in Fortran yes CD registration for FCD 1539-2: Fortran, Part 2: Varying Length Character Strings  
yes

FCD Ballot for FCD 1539-2: Fortran, Part 2:  
Varying Length Character Strings  
yes

The representative for Fortran in the NNI Programming Languages Committee is also member of NCITS/J3.
