JP- 001		12.6.2.1	C1213a	ed	A reference to the corresponding syntax rule is missing.	Change "C1213a A SIZE= specifier ..." to "C1213a (R1213) A SIZE= specifier ...".	Japan has withdrawn this comment after learning that the Project Editor has been removing syntax rule references where there is no ambiguity.
JP- 002		C.6.8	sample program of paragraph 2	te	It is incorrect that the first three statements of the body of DO loop labeled "outer" are executed at each loop iteration.	Change outer : DO local_index = THIS_IMAGE () team_number = MERGE (1, 2, local_index<=images_used[1]) SYNC ALL (STAT = status) to local_index = THIS_IMAGE () team_number = MERGE (1, 2, local_index<=images_used[1]) SYNC ALL (STAT = status) outer : DO	The committee accepts this comment and has made the change in Corrigendum 2. The example may be further refined for Fortran 2023.
